

NAPLAN Online 2019

Parent/carer consent for disability adjustments

A student with a significant intellectual and/or functional disability may be exempt from participating in NAPLAN. All other students are expected to participate in NAPLAN and disability adjustments may be made to support individual students.

Adjustments permitted in NAPLAN are intended to enable access to NAPLAN on an equivalent basis to students without disability. The adjustments should reflect the kind of support and assistance provided for assessment in the classroom, noting that adjustments that are appropriate in a learning environment may not be appropriate in a standardised assessment environment.

Disability adjustments must be discussed with the student's parent/carer and this consent form must be signed and filed at the school prior to the test period.

An application must be made to NESA for a student to use a paper based test. An application must also be made to NESA for the use of assistive technology, colour contrast modification or a scribe. Further information and the application spreadsheet can be accessed on the NESA *Schools Online* website.

All other disability adjustments are to be approved at the discretion of the school. School approved disability adjustments must be allocated to a student's online test profile prior to the tests by the NAPLAN coordinator.
