The Performing and Visual Arts sub Committee (PVAsC)
2010 Report

PVAsC, as a branch of the P&C, supports the work of the Performing and Visual Arts staff and students at NHSPA.

During 2010 we assisted with the organisation of the upgrade to the Studio Theatre including a new stage floor, new drapes, new seats, the reworking of access to the catwalk and the purchase of a new sound-mixing desk.

2010 was also the first year of the pilot program for Guest Directors, in which six University of Western Sydney Drama education students directed three of the Showcase Drama companies.

During 2010 PVAsC also took part in the creation of the Master Classes Program for the Performing and Visual Arts. The Master Classes, as well as honing specific student skills, have also opened the doors of the school to professional Performing and Visual Arts practitioners, whose knowledge, experience and contacts have already been of benefit to our students.
